---

Designer with 5+ years of experience specializing in design systems. Proven ability to craft high-fidelity UI/UX across web apps and B2B enterprise platforms. Proficient in functional prototyping and motion design.

## WORK EXPERIENCE

---

### **Komprise • San Jose, California, United States**

**December 2021 - Present**

#### **UX Designer**

- Improved the Directory Browser UI, replacing a collapsing tree-view model with a drill-down navigation system, which reduced UI load latency by 40%.
- Redesigned the Sites tab as part of a broader UI modernization, maintaining high user satisfaction while introducing scalable layout structures, WCAG-aligned accessibility, and token-based theming.
- Led data tagging UX by introducing role-based access control. Enabled mass metadata operations, increasing data search speed by 62%.
- Designed and implemented a new login page layout with integrated marketing asset upload space, boosting asset engagement by 81%.
- Ensured a secure data migration experience by designing transparent error and warning UI, reducing accidental data loss by 72%.

### **RingCentral • Belmont, California, United States**

**June 2021 - November 2021**

#### **UX Design Intern**

- Improved the navigation and information architecture of RingCentral's Admin Portal, enhancing usability for 3.2M+ users across the globe.
- Proposed a new product concept, "RC EDU" to improve students' education experience through LMS + video call integration, collaborating with cross-functional teams.
- Participated in sprint-based agile workflows and design reviews with product managers and engineers, contributing to UI decision-making and QA handoff.

### **Findem • Redwood City, California, United States**

**February 2021 - May 2021**

#### **Product Design Intern**

- Led user flows for an AI-based talent tracking platform, improving users' hiring process by aligning candidate filters, keyword match, and funnel system.
- Created and maintained component libraries with documented tokens, variants, and guidelines.
- Collaborated with product managers and engineers in Agile sprints. Regularly participated in usability validation and final QA reviews to ensure UI fidelity and performance alignment.
- Supported marketing team to create various visual/graphic assets.

## EDUCATION

---

### **Master's in Interaction & UI/UX Design**

Academy of Art University • San Francisco, CA

December 2021

### **Bachelor's in Industrial Design**

Seoul National University of Science and Technology • Seoul, South Korea

December 2018

## SKILLS

---

**Design Systems & Documentation:** Accessibility ( WCAG), Auto Layout, Components, Contribution Models, Figma, Governance, Guideline, Responsive Design, Tokens, Variants, Version Control, Zeroheight

**Visual & Motion:** Adobe Creative Suite, After Effects, Animation, Framer, Iconography, Illustrator, Interaction Design, Motion Design, Prototyping, Typography

**UX & Collaboration:** A/ B Testing, Agile, Brainstorming, Design Concepts, Design Strategy, Jira, Microsoft Office, Roadmap, Storytelling, Survey, System Thinking, Usability Testing, User Interview, User Research, User Scenario, Wireframe, Workshop

**Tech/Platform Familiarity:** Android, iOS, React
